## BENEFITS

## INTRODUCTION

**Contractor's Quality Management System (CQMS)** CIS 29:2021 is an independent system that evaluates a contractor's quality management implementation based on the Construction Industry Standard (CIS 29). Serving as an affordable alternative to ISO 9001, CQMS is ideal for budget-conscious contractors who prioritize the quality of their work. By choosing CQMS, contractors can maintain quality control, meet client standards, and gain additional benefits for PPK registration in Malaysia. Implementing CQMS also earns contractor's extra points in MCORE / SCORE CIDB assessments for PPK registration. **A certification fee of RM4,000 cover a one-day training, documentation for the quality manual, third-party audit and certification of CIS 29:2021. Applicants will also receive free template for quality manual, free CIS 29:2021, free attendance to CREAM Webinar Series and CCD Points worth RM13,000.** The audit process is streamlined, taking only one day, and the certification remains valid for three years. Furthermore, CQMS carries equivalent weightage to ISO 9001 for CIDB SCORE / MCORE, making it an attractive and cost-effective choice for contractors in Malaysia, specially designed for their needs.

- 1** **Specialized Evaluation:** Tailored assessments based on Construction Industry Standard (CIS 29).
- 2** **Cost-Effective:** An affordable alternative for contractors, only RM4000, with high-quality standards.
- 3** **Enhanced Reputation:** Maintains rigorous quality control, enhancing credibility.
- 4** **Smooth PPK Registration:** Streamlines registration process for Malaysian contractors.
- 5** **Extra Points in Assessments:** Earns additional points in MCORE / SCORE CIDB assessments.
- 6** **Streamlined Audit Process:** One-day audit minimizes disruptions and saves time.
- 7** **Long-Term Certification:** Valid for three years, ensuring continuous credibility.
- 8** **Equivalent Recognition:** Carries same weightage as ISO 9001 for CIDB SCORE / MCORE.
- 9** **Free attendance to CREAM Webinar Series** with up to 240 CCD points/year worth RM3,400 (1 pax/year)
